eKYC

WHAT IS eKYC?

With eKYC, your digital identity verification service, you can onboard your clients fully remotely. It provides an end-to-end compliance platform for full KYC/AML checks. eKYC is integrated with eGOV Jamaica Ltd. (Voter's IDs), Driver's License Registry and TRN Registry.

The eKYC Suite provides photo and real-time video remove customer identification (liveness test) and other KYC Services, combining artificial intelligence and machine learning algorithms. Importantly, the eKYC Suite also provides bank-level security, national document database access and easy integration, as well as 100% process flexibility.

The onboarding process is implemented using photo and video identification with AI embedded. eKYC Suite will make available:

- ✓ Biometric Authentication
- ✓ Remote Customer Identity Verification
- ✓ Document Data Scanning
- ✓ Proof of Address Verification
- ✓ Omni-Channel Platform Approach
- ✓ Access Via Multiple Mobile Devices or Computers

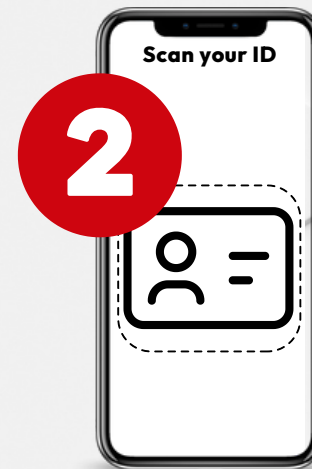

HOW IS IT USED?

DIGITAL CUSTOMER ONBOARDING IN 3 FAST AND EASY STEPS
